

You can see from the following screenshots:

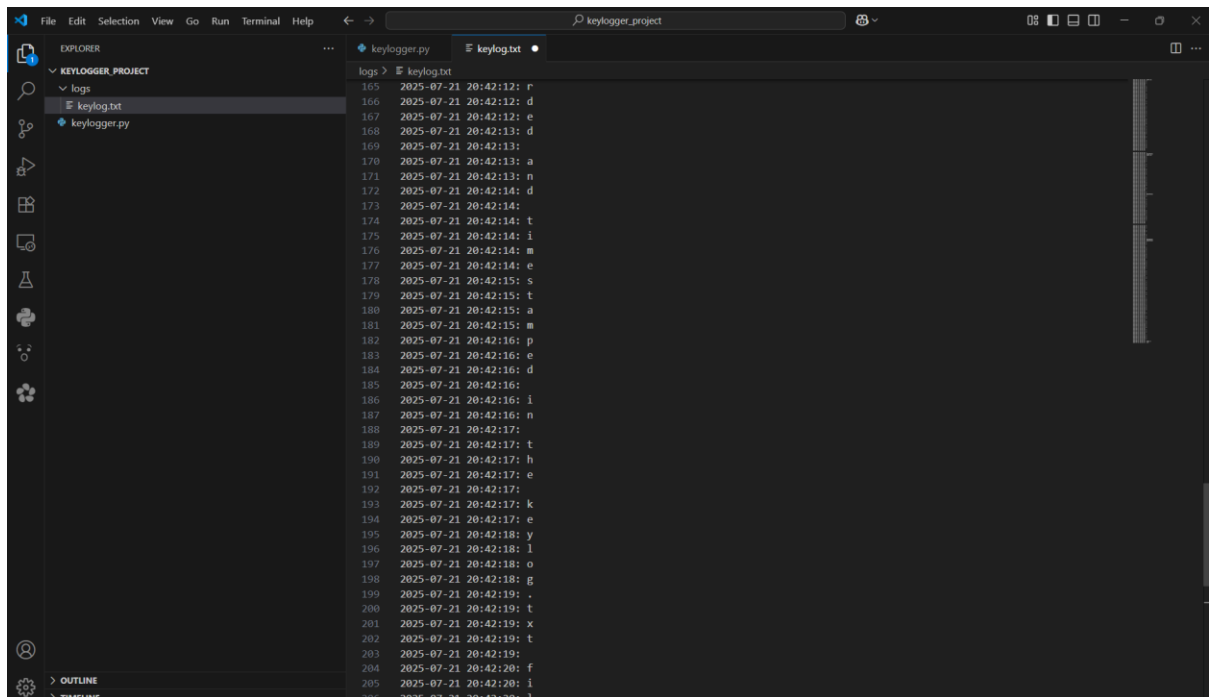

The code of keylogger

After running the code, I have written some lines on Notepad, which were recorded and stored on the keylog.txt file.

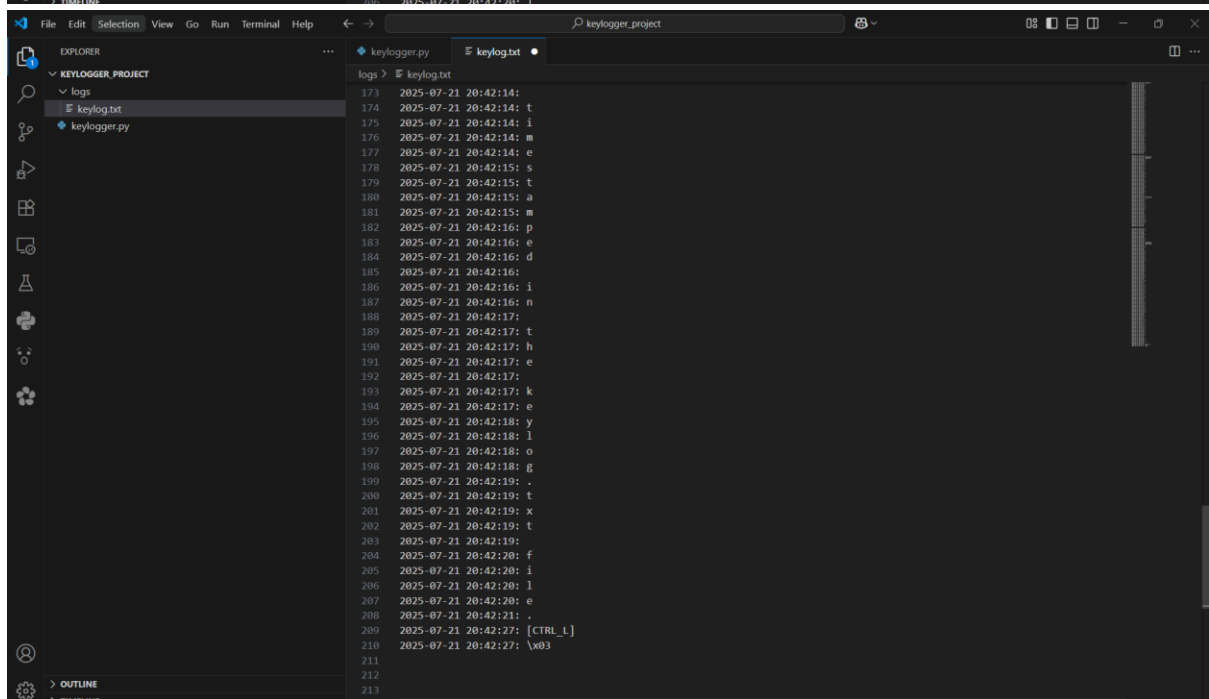

This screenshot shows the Visual Studio Code interface with a project named 'keylogger\_project'. The Explorer sidebar on the left shows a folder 'KEYLOGGER\_PROJECT' containing 'logs' (with 'keylog.txt' inside) and 'keylogger.py'. The main editor area has two tabs: 'keylogger.py' and 'keylog.txt'. The 'keylog.txt' tab is active, displaying a list of 26 lines of log data, each consisting of a timestamp and a character. The data starts at 20:42:12 and ends at 20:42:20. The characters include letters, digits, and symbols like a period and a comma.

Line	Timestamp	Character
165	2025-07-21 20:42:12	r
166	2025-07-21 20:42:12	d
167	2025-07-21 20:42:12	e
